

Appendix B_a

Logging in as a Student

To log in as a student, students must first enter the class name and password that you created for the class on the classchatter.com homepage.

After students have logged into the class they will be shown the class "homepage." Near the top of the homepage they will have to choose their name from the pull-down menu and enter their personal password. (See Appendix B) After the student has successfully entered their log in information they will be taken to the student section of the web site.
